

01.5 LEAF AND GRAVEL GRATES

^ **ART. 26**

Leaf grate suitable for
roof drains from mm. 75 Ø
to mm. 125 Ø

Art. 26 LEAF GRATE is suitable for roof drains with diameters from 75 mm to 125 mm, it is made from thermoplastic material and is resistant to degradation caused by the sun, ozone and other atmospheric and chemical agents. The attachment to the roof drain is optimized by the small hooks present on the inserts of the leaf grate.
